

Good evening,

I am appalled to hear that the NAB is trying to take away valuable services that I have chosen to pay for. Satellite radio offers quality uninterrupted programs that my entire family can listen too. I also enjoy the pleasure of getting up to date traffic and weather any hour of the day. The FCC should focus more on the vulgar and distasteful antics and commercials of "free" radio, which I choose not to listen to. I respectfully urge the FCC to reject the NAB's petition 04-160. "Free" radio should be asking itself, why have millions chosen to pay for this service? All of America should be opposed to most of what goes on today on "free" radio and the majority of the television shows.

Have a great evening,

Andrew Luck
